

PEDIATRIC DENTISTRY OF UNION

What we are doing to keep our patients and staff safe:

- ◆ Practicing social distancing – scheduling appointments further apart
- ◆ Increased PPE for clinical staff as per OSHA and CDC recommendations
- ◆ Usual universal precautions and sanitary measures
- ◆ Checking staff's temperature daily

What we are asking you to do:

- ◆ COVID Screening questionnaire – to be filled out via text
- ◆ Reschedule appointment if answered YES to any screening question
- ◆ Plan childcare for children that do not have an appointment. Plan to only bring children that have an appointment to the office

Arriving / check-in

- ◆ Please wait in the car when you arrive, call / text and let us know you're here. We will let you know when we are ready for you to enter the building
- ◆ We will provide you with hand sanitizer
- ◆ We ask that only one parent accompany the child / children and that no other children or adults attend the appointment.
- ◆ We will check your and your child's temperature in the waiting area

Phased re-opening

- ◆ Initial phase – we will need to focus on those patients with emergent and urgent dental needs such as those with existing treatment needs that had to be postponed
- ◆ Following the initial phase we hope to cautiously begin seeing patients for their routine dental check-ups and cleanings!
